**San Jose Chapter members:** please encourage an eligible organ student to apply for the Frasier Organ Scholarship this year. As a reminder, the scholarship is open to current chapter members and to organ students studying with or sponsored by current members (previous winners are not eligible). Please encourage any potential scholarship applicants now!

## **Organ News of the Monterey Peninsula**

Melanie Cervi

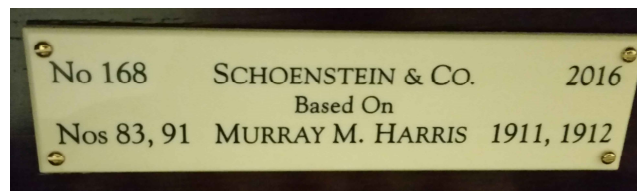

The past 12 months have been busy for this area in organs. We have welcomed 3 new organs into churches. We have celebrated great organ music in concert series and celebrations. It's been an eye-opening experience for many who have never paid attention to the King of Instruments.

St. Dunstan's Episcopal Church in Carmel Valley installed Dobson Opus 94 in November 2015. The parish is thrilled! The concert series has featured organists from the local area and from all over California. Fundraising is ongoing with the end in sight. At a recent concert given by Angela Kraft Cross, there were visitors from out-of-town, local music professionals and quite a few first time attendees. Plans are in place to continue the concert series in 2017.

First Presbyterian Church in Carmel will be firing up a brand new Ahlborn-Galanti. The pipes are installed in the rear of the chancel along with main speaker up front. It's an exciting sound to sing with! I'm sure Bach Festival 2017 will enjoy the instrument along with the many people each week who visit the church.

First Presbyterian Church in Monterey is completing installation of Schoenstein of Opus. 168. Things are still settling in. The annual Choir Concert included the organ. This instrument is a combination of several organs with

components from Murray Harris no 83 & 91. It is a fine example of Classic American organs. Look for more events in the calendar during 2017 and beyond.

Interest in the organ as an instrument is continuing to grow by the Bay. San Carlos Cathedral in Monterey will be starting the refurbishment of their organ soon. Fundraising concerts begin in November 2016. We'll be keeping an eye out for more organ related events. There's such a great variety here. Anyone ready for time on the bench of the Wurlitzer organ in the Golden State Theater?

## **12<sup>th</sup> Annual New Year's Eve Organist's Kaleidophone!**

**Peace United Church of Christ**, 900 High Street, Santa Cruz (near the university), **Sat, 31<sup>st</sup> Dec, 2016, 4 PM.**

Champagne and Chocolate reception follows.

About half a dozen local organists each take a turn at the magnificent and beautiful Aeolian-Skinner 3 manual organ. Other instrumentalists (oboe, clarinet, harp, mandolin, etc) and singers often join in, adding variety and enjoyment to the program. Come and celebrate the New Year in Santa Cruz, starting with the Kaleidophone, and then continuing by enjoying the traditional Santa Cruz downtown New Year's Eve festivities.

This has become quite a tradition in Santa Cruz – we usually get a full church!

Many thanks – **Colin Whitby-Stevens**

## ***Cathedral of Christ the Light, Oakland***

Lothar Bandermann

Perhaps you haven't yet checked out the new big organ in the Catholic *Cathedral of Christ the Light* on Lake Merritt in Oakland (<http://www.ctlcathedral.org/>). There is a nice video of a performance on the internet of Tournemire's 'Victimae Paschali Laudes' with pictures of the Cathedral (inside and out) (<https://www.youtube.com/watch?v=5uqcXvw7aXQ>), which is also a stunning building and worth visiting (and has a beautiful view of Lake Merritt). The organist over there is a young South-Afrikan who makes good use of the mighty instrument and the acoustics of the building. I'm including the performance on my fourth CD of collections of Toccatas, Sorties, etc. (If you want free copies, let me know). [lwbandermann@att.net](mailto:lwbandermann@att.net)

The organ is a Létourneau 94 stops, four-manual, pedal organ with 5298 pipes. <http://www.ctlcathedral.org/ctlcathedral-life/music/ConroyMemorialOrgan.pdf>

### LOTHAR BANDERMANN MUSIC

Lothar Banderman's website contains all recorded works of his; including all pieces for organ or piano, and the latter have also PDF files of the scores **except those currently in publication** (like the recent "Litanies for Organ"). So if you find any interesting enough, copy the PDF files before they are published! Published music is getting more and more expensive.

Lothar has compiled 40 toccatas on 2 disks (one for old masters, one for contemporary composers). The main purpose was to put together a number of toccatas, some of which are famous (and difficult), others also great (but easier). Most of them he recorded on the organ at his church, St. Joseph of Cupertino, and half-a-dozen

downloaded from the internet (too difficult for Lothar and played by great organists on fabulous organs here and in Europe). Your students or even yourselves may be interested in having this collection (which also contains Toccatas Lothar has written, of course). Email him if you want copies of the CDs which he is giving away for free ([lwbandermann@att.net](mailto:lwbandermann@att.net)). 🎵

### New Zealand Earthquake Damages Anglican Cathedral's Pipe Organ

The organ at Wellington's Cathedral of St Paul has suffered significant damage in Monday's earthquake. Director of music Michael Stewart said that while the cathedral appeared to have made it through unscathed the organ, worth millions of dollars, had suffered "significant damage". Many of the very large pipes fell over during the earthquake. [wellingtoncathedral.org.nz](http://wellingtoncathedral.org.nz)

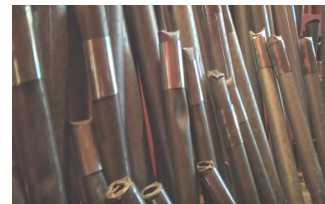

"We've spent the morning here picking pipes up off the floor and rearranging things. Basically the earthquake shook a lot of the pipes off brackets which have crashed onto other pipes, so it's a bit of a mess at the moment to be honest," Stewart said. The large pipes caused a lot of damage. We're very lucky that this did not occur at another time and that no-one was hurt," he said.

The original organ was built by the English firm of T C Lewis and Company, and installed in Old St. Paul's in 1877. It was a fine example of that famous builder's work, and was a two-manual tracker blown by a water engine.

It was rebuilt and enlarged in the 1930s by Lawton and Osborne of Auckland. A new choir organ was added, and the tracker action was replaced by exhaust pneumatic. In 1964 the organ was moved to the new Cathedral by George Croft and Son of Auckland where it served the Cathedral music until 1976 when Crofts were entrusted with the work of rebuilding and enlarging the instrument to cathedral proportions.

"It has withstood everything from then until now. It's too early to say how much it will cost to repair the organ.

Some parts will be salvageable, other parts are completely destroyed, bent out of recognition," Stewart said.
