*February's Message*

We started our year with a bang. On **Saturday 27 January 2018** at **Immanuel Lutheran Saratoga**, 14103 Saratoga Ave, Saratoga we had our very successful **Pedals, Pipes & Pizza**. Twelve youth and their parents attended and were thrilled play and hearing the pipe organ. This event is one of our favorites as we help our youth become inspired with the pipe organ.

Our next event is the Student Recital which will take place on **23 February**. It is always exciting to hear organs students and see what they are achieving. In the past we have found the some of these students are very talented. Be sure to come out and support them.

In March we have the privilege of have **John Walker** present both a **Concert** and a **Workshop**. John was the dean of our chapter during the 1974-1976, way before my time. He was also president of the National AGO from 2014 to 2016. Please invite your friends to attend the concert with you to hear great organ music. Mr. Walker is a great organist and he has prepared a special program for us to highlight the Schantz organ he will be playing.

See you at the events.

Kenneth Talbot

**Student Recital**

It's time for our annual Student Recital. We have a wonderful program including an original composition! Please join us at **Sunnyvale Presbyterian Church**, 728 West Fremont Ave, Sunnyvale, on **Feb. 23 at 7:30 pm**. A reception will follow the recital. Come out and support these wonderful student performers!

If you would like to help with the reception, please contact, Diane Keller at [diane.keller@gmail.com](mailto:diane.keller@gmail.com)! 🎵

**John Walker Concert and Workshop**

**John Walker**, Former Chapter Dean (1974-1975) and AGO National President will present a **Concert on Friday 23 March 2018**, at the **Campbell United Methodist Church**, 1675 Winchester Blvd, Campbell, CA at **7:30 PM**. The cost of the concert is \$20.

He will also present a Workshop on **Creative Hymn Playing**. The workshop will be on **Saturday 24 March 2018** at the **First United Methodist Church**, 625 Hamilton Avenue, Palo Alto, **4:30-6:30 PM**. The cost of the work shop is \$10. 🎵

## 27 JANUARY CHAPTER EVENT

### PEDALS, PIPES, AND PIZZA

Our annual PPP was held on 27 January 2018 at Immanuel Lutheran Church, 14103 Saratoga Ave, Saratoga. This event is sponsored by our chapter members to give more exposure to the instrument that we love. **Twelve** students participated this year. We wish to thank **Elisabeth Pinter** for organizing and conducting the event. Helping was **Melanie Cervi, Diane Keller, Pat Milstead, Darryl Parker, and Kenneth Talbot**. Thank you all who helped.

Before the event the Diane played various organ pieces (Bach, Hymns, etc.) so that the students could hear and appreciate the majesty of the organ.

While all of the youth were in one group Melanie Cervi explained the various parts of the organ (couplers, pistons, tabs, etc.). Next Diane Keller explained the differences between the organ and piano (pedals, legato touch, finger substitution, etc). Then Darryl Parker demonstrated the various stops and sounds of the organ. Pat Milstead explained the mutation and mixtures stops along with the Swell and Crescendo pedals.

The students were then divided into two groups. While the first group played the organ the second group would visit the organ chamber and were also shown different types of organ pipes. We also explained how organ pipes made their sound. After a set amount of the time, the groups exchanged places.

In the first group each student played his/her piano piece on the organ. Pat and Darryl helped the students set the registration on the organ for the piece they were going to play. A number of the pieces were even played several times with different registrations so that the student could hear how different registrations can affect the presentation of the piece.

The second group went with Elisabeth into the organ chamber to see the various parts of the organ and some of the organ pipes. They also felt the sound vibrations of the big pedal pipes. Next Kenneth demonstrated the small samples of pipes we have and explained how the pipes produce the sound and what the various parts are called.

Everyone had a good time and there was plenty of pizza afterward. We also thank Elisabeth Pinter the organist at Immanuel Lutheran Church and the Church Officials for their sponsorship of this event. 🎵

## Schoensteins Visit Ancestral Home

Press release from Jack Bethards

Villingen, an historic and charming walled city near Baden-Baden in Germany's beautiful Black Forest, was the home of the original Schoenstein firm where Felix F. Schoenstein learned the trade from his family before emigrating to America to establish Schoenstein & Co. Ed Schoenstein, grandson of Felix, and his wife Patricia visited Villingen to meet family members and search city records for official information on the family and the firm.

The Uberbürgermeister of Villingen, Dr. Rupert Kubon, received them at the Rathaus on September 22, 2017. The Schoensteins presented the Mayor a letter from company President Jack Bethards stating in part "We owe our founding and our success to the brilliance of German craftsmanship. In fact, the whole organ business in America owes much to the many German craftsmen who came here to establish organ building in the new world . . . Still today we maintain close relationships with our German organ building colleagues as members of the International Society of Organbuilders. Many of the parts used in our organs are made by German suppliers."

Mr. & Mrs. Schoenstein arranged the donation of a portrait of Karl Schoenstein, Felix's brother, to the Franciskaner Museum. They also visited the Villingen city archives to see an official document dated 1557 with the seal of Johannes Schoenstein, first documented member of the family.

The AGO Headquarters webpage has an excellent section titled "New Organists Pages" in the Education section of their webpage. The address is <https://www.agohq.org/lessons-for-the-new-organist/>. There is a section that has 30 short basic lessons. These lessons are from 4 to 20 minutes long. These lessons are well done and worth watching.

The YouTube address for Lesson 16 does work. Use the follow address for Lesson 16:
