Combination Action and Memories (32 levels)

General pistons: 10 (five duplicated by toe studs), Manual pistons: 5 for each division

The organ at Saratoga Federated Church is a 3-manual Aeolian Skinner, Boston, Opus 1436. It was purchased and installed in 1964 by Schoenstein. In 2006 the sanctuary was remodeled and the organ underwent extensive repairs and additions. Added to the organ were 6 new ranks of pipes as follows:

Great: 8' Trumpet, 4' Octave, 4' Flute, and 2' Principal

Swell: 8' Oboe, converted the 1 <sup>1</sup>/<sub>3</sub>' Rohrnat to a 2 <sup>2</sup>/<sub>3</sub>' Nazard

Choir An existing 4' Spitz Principal was moved to the Choir

Pedal: 16' Bourdon

A Peterson MIDI, 32 levels of memory were added, and all of the original pneumatic action was replaced by a solid state combination action to drive the draw knobs. All of the organ works was done by Roger Inkpen of Newton Pipe Organ Services, Inc.

Pedal pistons: 5 toe studs

**Organist:** Mary Norton
